America's healthcare system in the 21st century faces a variety of pressures and challenges, not the least of which is that posed by the increasingly multicultural nature of American society itself. Large numbers among the Hmong, immigrants from the landlocked Asian nation of Laos, continue to prefer their own ancient medical traditions. That these Hmong Americans should continue to adhere to ...

Abstract: We study the relation between the spectral gap above the ground state and the decay of the correlations in the ground state in quantum spin and fermion systems with short-range interactions on a wide class of lattices. We prove that, if two observables anticommute with each other at large distance, then the nonvanishing spectral gap implies exponential decay of the corresponding ...
