" Blood and Soil is a stunning achievement. The idea for the project was clearly a prompting of the heart, but the argument itself is a thing of pure intellect. It surveys thousands of years, visits every corner of the world, and stares with scarcely a blink at the worst horrors the world has ever known.

A major contribution of Blood and Soil is that it encourages the reader to think about genocide over a much greater historical and geographical span than is usual in comparative works. Kiernan's structure for comparison suggests that, from the fifteenth to the twenty-first century, genocides usually have exhibited four characteristics.
